Placerita Canyon Nature Center Associates,
the County of Los Angeles Department of Parks and Recreation, and
The Community Hiking Club present as the August Community Nature Series

The World of Wolves
Sunday, August 21st at 2:00 PM

Placerita Canyon Nature Center
19152 Placerita Canyon Road
Newhall, CA 91321
(661) 259-7721

Come join Project Wildsong Wolves Damu and Cael with handler and presenter Kimmi Kraus for a presentation that is not to be missed.

'The World of Wolves' is an exciting presentation which gives an overview about wolves and discusses topics such as wolf habitat, diet, physical characteristics, pack structure, and why wolves are important to the ecosystem through fun and interesting facts. One of the unrivaled aspects about our program is the involvement of our Ambassador Animals who represent their wild counterparts. Their involvement and presence helps to foster an intimate, hands-on learning experience that is truly one of a kind. Through each positive experience of our guests, we hope to rewrite today's perception and perspective of wolves and North American apex predators.

Kimmi is a native Southern Californian who studied wildlife biology specializing in apex predators. She has been working with captive and wild wolves for seven years.

Kids are welcome to come too! Bring the whole family! It's fun, and it's free!
Donations are always accepted. Damu and Cael appreciate it

Join us on August 21 at 2:00 pm in the outside picnic area by the bridge for this special event. It is free and will be great fun for the entire family.
